OMG ROOFING PRODUCTS NAMES PRODUCT DEVELOPMENT CHEMIST FOR ITS ADHESIVE BUSINESS

AGAWAM, Mass., January 2022 – OMG Roofing Products, a leading manufacturer of fasteners, adhesives, and installation productivity tools for the commercial roofing industry, has named Brittany deRonde of Westfield, Mass., to the newly created position of Product Development Chemist.

In her new role, Brittany will work with the product managers and development team to address unmet market needs with innovative new adhesive and sealant solutions based on advanced engineering. She reports to Cecile Mejean, Director of New Product Development & Innovation.

Brittany comes to OMG with significant technical experience. Most recently she was with ProAmpac in Westfield, Mass., where she was a product development engineer. Earlier she had been with Mondi Tekkote of Leonia, NJ in various engineering and technical management positions supporting product development efforts.

Brittany holds a Ph.D. and master's degree in Polymer Science and Engineering, both from the University of Massachusetts, Amherst, and a bachelor's degree in Chemistry from Rutgers University.

Headquartered in Agawam, Mass., OMG Roofing Products is a leading manufacturer of commercial roofing products, including specialty fasteners, OlyBond Adhesives, OlyFlow Drains, PipeGuard Pipe Supports, PowerGrip Solar Mounts, as well as productivity tools sold under the AccuTrac and RhinoBond brand names. The company's focus is delivering products and services that improve contractor productivity and enhance roof system performance. For additional information, visit OMGRoofing.com or call 800.633.3800.
