

LONG TERM STORAGE FOR PACECART*

OMG PCPreserver™ is a non-hazardous long-term storage product for use with the patented PaceCart dispensing equipment. PCPreserver is specially formulated to flush OlyBond500® adhesive residue from PaceCarts as well as keep PaceCart pumps, hoses, and the gun assembly sufficiently lubricated during periods of extended storage.

PCPreserver is a non-hazardous option for prepping a PaceCart for storage. It is safer to use, better for the environment, and easier to dispose of than harsh solvents or hazardous materials.

FEATURES & BENEFITS

- Easy to handle 1 gallon (3.78 L) containers.
- Snap-in-place spout for easy connection to the PaceCart.
- Non-hazardous formulation is better for the environment.
- Very low VOC (< 1 g/L).

APPLICATION

PCPreserver can be used on both Part 1 and Part 2 sides of the PaceCart. Pump the PCPreserver through the PaceCart pumps, hoses, and gun, and into a suitable bucket or waste container for disposal. Leave the PCPreserver box in place and connected to the PaceCart until the unit is taken out of storage. Two gallons (7.57 L) (i.e. 1 per side) is sufficient to completely flush one PaceCart and prep it for storage. See box label for details.

*PaceCart, PaceCart 2® and PaceCart 3™ are the exclusive application tools for dispensing OMG OlyBond500® Insulation Adhesives.
