PRODUCT DESCRIPTION

Roofer's Edge products are designed for easy application on buildings that don't require Factory Mutual tested or approved edge systems, and serve as the roof's first line of defense against wind and water infiltration. These products are ANSI/SPRI/FM 4435/ES-1 tested, and come with a 15-year warranty for wind speeds up to 90 mph. Roofer's Edge products come in 10-foot lengths, most include 24 Ga. galvanized cleats for easy installation, and are available in your choice of Kynar500 coated .040-inch aluminum, or Kynar500 coated 24 Ga. galvanized steel covers. In addition, Roofer's Edge products come with fastener, are available with optional face extenders up to eight inches for increased wall coverage and come in any of OMG's 31 standard and premium colors. **When your project calls for a fast and simple edge product, call for the Roofer's Edge!**
